The Mermaid Story is a sensuous story of love, mindfulness, and vision; a story of greed, corruption and cruelty. To read The Mermaid Story is to experience the not-too-distant future into which Epyphany, a real mermaid, is born on the secret island of Oojai and raised by an ageless wise-woman named Blyss. Epyphany and her small tribe of gifted swimming, flying and crawling friends, live an idyllic life on their peaceful island, until the day they are forced to choose between anonymity and the life of Thurrow, a famous genius and multi-millionaire inventor. Epyphany's birth may have been a magic twist of fate or a gift from the heavens. She has been thrust upon our polluted planet and charged with the thankless task of guiding humankind through the Transition and into a new era of unprecedented diversity.

"Like a statue washed in moonlight, Epyphany sat motionless, gazing out over the bay. The warm breeze carried the scent and sounds that spoke to her of home--her secret place--the beautiful, enchanting, and peaceful island of Oojai. She shivered. The chill of the outside world had followed her home. Maybe she shouldn't have saved Thurrow. Perhaps she should have let him drown. When Epyphany swam to rescue him, she could see it in his eyes--fear, then disbelief, joy, then confusion, then finally fear again. She had let him live and she knew he would try to find her again. Her secret world was no longer safe. Epyphany slipped back into the bay, swam a few yards, then stopped. She tilted her head and, facing the full moon, she began to sing. She sang in the quiet language of Oojai that most humans could not hear. It was like a whisper, like a song that melts into the wind and the crashing waves. The Tribe heard Epyphany's message and knew the Transition was growing near."
