Book 5 - The Brexit Affair

Change Demands Sacrifice

It is 2019 and three years after the United Kingdom's decision to leave the European Union, negotiations drag on. Scotland has voted 'Yes' to independence and Northern Ireland is about to hold its own referendum on whether to stay in the UK or join the Republic. Britain's future is uncertain.

Nick Severance is on a visit to the UK from Japan when he is contacted by Gabriel Johnston of MI6. One of Johnston's agents has disappeared after taking delivery of a brand-new computer virus that could seriously damage the UK's infrastructure. With suspicions of a traitor in Johnston's team running high, Nick agrees to unofficially assist in tracking down the missing agent.

As events unfold, disruption and mayhem are unleashed as part of an experiment in using cyber warfare and terror as a political strategy to change the balance of

power in post-Brexit Britain. Can Nick and his friends stop the people behind that strategy before hundreds of innocents are killed? Or will they end up as just so much "collateral damage" instead?

Book 6 "The Godzone Connection"

Can you really disappear without a trace?

Phoebe Fraser is an English woman working at a private bank in Tokyo. When she steals \$10 million from a client's account and then disappears, Nick and Mariko Severance are brought in as private investigators, to track her down.

It looks like a simple case of greed, until the body of someone close to Phoebe washes up on a beach in Tokyo Bay. Murder becomes linked with theft and Phoebe is the main suspect. One way or another, she has to be found.

The search takes Nick halfway around the world to New Zealand, where he unravels a story involving insider dealing, love and betrayal, and ultimate revenge. But he isn't the only one searching. Certain interested parties also want to find Phoebe and for reasons of their own, silence her forever. It's really just a question of who gets to her first.
